

Big News!

Homespun Quilts is now an **authorized Bernina Dealer and Authorized Repair Shop!!** We got our dealer number on April 12 while we attended New Dealer Training in Chicago. Since we got our number, I stayed a second week for Product Training (required before ordering anything). I placed the order and received several Bernina sewing machines. Thor attended technical training and is now an **Authorized Sewing Machine Technician**. He is able to do **cleaning**, oil, yearly maintenance and most **repairs** on many brands of sewing machines. He is really pleased about this and can't wait for his tools to arrive.

Bernina Beach Party

We're having a Bernina Beach Party at the store. Come enjoy the fun between May 21st and 27th. Join us for refreshments and prizes, test drive a Bernina Sewing Machine, and weigh your hubby and get that amount taken off the price!

Stripes and Flowers

Here's a more "modern" floral and coordinates. It's a fun group by Amy Butler. There are flowers in two colorways, a large leaf type print and a great stripe. Try framing each flower or just adding borders to a length of it.

Peek-a-Boo

Peek-a-Boo is by Moda. There are so many possibilities with this group. One has clocks with little messages like: crying time, another has scattered baby bottles, there are stars and numbers too. Make a Yellow Brick Road, or Square in a Square for the new baby in your life.

A "Manly" Group

Here is a fine "manly" group by Moda. It features a fishing motif. There is water running over rocks, a "picture" that's great for borders and fish flies and other coordinates. Maybe a Rag Quilt for the fishing cabin or the car. Try a Reversible Quilt, I wonder what a Kalidoscope would look like?

Happy Quilting!
Lydia
